

Name: _____ Period: _____ Date: _____

Quarter One: Quiz One Study Guide

European Geography and Ancient History

Focus of Quiz One will be on the physical geography of Europe and Russia and the application of skills and processes as they relate to the study of geography.

Quiz on _____

Objectives:

Students should be able to:

- identify Europe's relative location in the world and describe the characteristics that make it a region.
- identify Russia's relative location in the world and describe the characteristics that make it a region.
- describe the major geographic (land and water) features and climatic features of Europe and Russia.
- apply the following skills:
 1. know the parts to a "good map"
 2. be able to read and interpret maps
 3. use cardinal and intermediate direction
 4. calculate distance using a scale
 5. explain the difference between relative and absolute location; identify a location based on its longitude and latitude coordinates.
 6. identify and describe the three major latitude zones
 7. describe and apply the factors that influence a region's climate
 8. read and interpret a climate graph

Assignments and Notes Section:

- *Student Evaluation of Pre-Assessment* (Ms. Apple will keep the pre-assessment to chart student growth over time)
- Notes: *Major Parts to a Good Map*
- Notes: *Latitude Zones*
- Activity: *Physical Maps of Europe, Russia, and the Eurasian Republics* (directions and map)
- Article and Activity Sheet: *Europe: Physical Geography*
- Article and Activity Sheet: *Russia and the Eurasian Republics: Physical Geography*
- Article: *Two for One*
- Activity Sheet: *Where in the World? Europe*
- *Quarter One: Quiz One Study Guide* (this paper)

Note: Besides the *Pre-Assessment* you will complete a performance assessment task to measure geographical reasoning skills. Ms. Apple will also keep this task to chart student growth over time.

Key Terms/Concepts, Events and People:

LOST LADS	Absolute Location	Relative Location	Breadbasket
Latitude Zones	Region	Four Major Types of Land	Archipelago
Peninsula	Fjord	Strait	
Gibraltar	Dardanelles	Bosporus	
Eurasia	Hemisphere	North Atlantic Drift	
Gulf Stream	Permafrost	Black Earth Belt	
Chernozem	Factors of Climate	Population Density
